Islam Elswafy

React Native Mobile Developer

Egypt | islamelswafy30@gmail.com | +20 1097395409 (WhatsApp) | LinkedIn | Portfolio

SUMMARY

React Native Mobile Developer with 4 years of experience building high-performance and scalable mobile and cross-platform applications. Skilled in React Native, TypeScript, Redux, Expo, and modern front-end frameworks. Strong background in optimizing app performance, improving load speed, and creating reusable, maintainable components. Experienced in agile, remote environments and delivering production-ready applications supported by CI/CD pipelines and API integrations.

PROFESSIONAL EXPERIENCE

Front-End Developer | WJL | Remote | 2025 - Present

- Develop responsive, high-quality interfaces using React, TypeScript, and Vite.js
- Built scalable UI/UX design system with Tailwind CSS, reducing development time by 35%
- Optimized performance, reducing load times and improving Lighthouse scores
- Collaborate with cross-functional teams to deliver scalable front-end architecture

Senior Full Stack Developer | Taqdum | 2023 - 2025

- Led development of cross-platform apps with React Native, Vite, Node.js, and NestJS
- Implemented secure authentication, API integrations, and CI/CD pipelines for production delivery

React Native Developer | Graphinion | Remote | 2022 - 2023

- Built cross-platform social media app using React Native, TypeScript, and Redux
- Achieved 25% faster load times and supported 5K+ active users in the first 3 months
- Developed reusable UI components and improved app performance

KEY PROJECTS

- Social Media Application (Graphinion): Scalable React Native app with Redux and reusable UI
- Car Marketplace (Blox): Mobile-friendly marketplace with listings, search, and transactions
- AI Chatbot (Savvy): Interactive app experience with real-time API responses
- Law Firm Management (ElAvvocato): Secure app with role-based auth and document handling
- ERP System (Taqdum): Cross-platform workflow app improving efficiency by 40%

TECHNICAL SKILLS

Mobile & Frontend: React Native, React, TypeScript, Redux, Expo, Vite, Tailwind

Backend & APIs: Node.js, NestJS, Express, REST API, PostgreSQL

AI & Emerging Tech: OpenAI Codex, Cursor, Claude CLI

DevOps & Tools: Git/GitHub, CI/CD, Docker, VPS Deployment

Testing: Jest, Cypress, Playwright

EDUCATION

Full Stack Python Scholarship - ITI (2022) | B.A. in Media and Press - Assiut University (2020)

LANGUAGES

Arabic (Native), English (Proficient)
